The Strongest, Most Durable Industrial Floor Marking Products Out There

The Mighty Line difference is the patented technology in our floor tape. Our floor tapes, floor signs and floor markings are made to hold up to the rigors of warehouse activity. In addition to the unsurpassed durability, they are easy to install and have minimal residue upon removal.

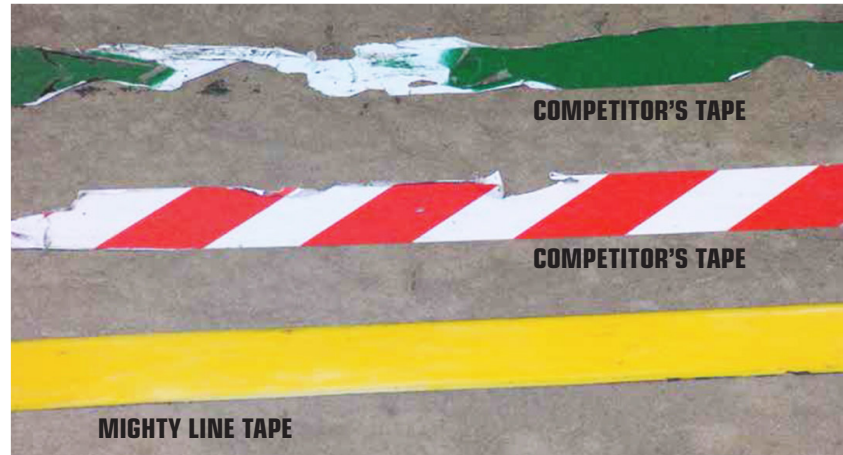

We know how important safety is to every organization. The breadth of the Mighty Line product line covers everything you need to implement a 5S system for the increased productivity of your facility and the safety of your employees.

THE MIGHTY LINE DIFFERENCE

Whose Tape is Toughest?

We installed our Mighty Line tape and a major competitor's tape side by side in an aggressive test area that is frequently traversed by forklifts carrying heavy loads. Nine months later, we visited this site to compare the results. You can see the competitors' tape has significant damage and disintegration, while Mighty Line Tape holds up to the test.

We've Got the Edge on Durability.

- 7 times thicker than average floor tape
- Patented technology makes it more durable than other floor tapes
- Beveled edges
- Peel & stick adhesive, removes easily
- Pull tab makes it easy to remove the liner from the adhesive backing
- Certified Anti-Static—use in areas with electronic equipment or electronics manufacturing

Color, Size, Shape. You Name It, We Have It.

We have everything you need to organize and safe-guard your facility. Use the many colors and shapes of Mighty Line floor tapes and floor markers to indicate work flow, delineate work areas, and mark proper placement of equipment, tools, inventories, and machinery.

MIGHTY LINE PRODUCTS
ARE MADE IN THE USA

Stay Safe. Stay Efficient. Stay OSHA Compliant.

OSHA mandates that employee walkways and work areas be clearly marked. But even without OSHA, you have plenty of incentive to use Mighty Line Floor Tapes and Floor Signs: safety, efficiency, productivity, and ultimately, profitability.

Using Mighty Line products, in conjunction with a 5S organizational method, will result in tasks being completed more easily and quickly, and a decrease in workplace injuries. To help you out, we've pulled together *The Mighty Line Guide to a Safe and Efficient Workplace*.

5S Color Code Chart

Based on Common Industry Practices.

YELLOW	Use to signify safe paths for walking
RED	For dangerous areas, emergency exit areas
WHITE	Production equipment: machines, carts, incoming racks
GREEN	Safety-related areas: eye wash stations, safety showers etc.
ORANGE	Machinery parts areas
BLUE	Works in progress/equipment under repair zones
BLACK	Finished goods area
YELLOW WITH BLACK DIAGONALS	Extra caution walkways
WHITE WITH RED DIAGONALS	Safety equipment areas: Fire extinguishers, electrical panels, AED machines, etc.

The Basic 5S Steps:

SORT Leave in place only the items necessary to obtain optimal production.

SET IN ORDER Use colors of Mighty Line floor tapes and floor markers to show work flow patterns, delineate work areas, and mark proper placement of tools, inventories, and machinery.

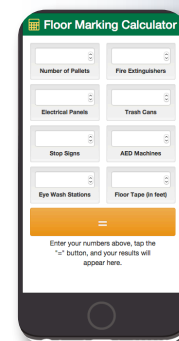

SHINE Keeping the work environment orderly and clean can actually lift morale.

STANDARDIZE Ensure everyone knows what they're supposed to do, how best to do it, and when to do it, until it all becomes routine. Our floor tapes, floor signs and placement markers can play a big role here.

SUSTAIN These practices are more than rules. Over time they will become an integral part of your company culture.

TIPS & EXPERTISE

Floor Tape & Floor Sign Installation Tips:

- Ensure installation area is clean and dry, and floor temperature is above 50°F.
- Adhere an edge of floor tape/sign to floor and remove the adhesive backing as the tape/sign is stuck to the floor.
- As you go, work out air bubbles from under the sign.

Clean Your Surface

Our cleaner is a green cleaning product that simplifies industrial cleaning and saves time by penetrating, dissolving, and safely cleaning any washable surface.

Application Made Easy

Try our NEW Mighty Liner Floor Tape Applicators. The lightweight, easy-to-use applicators apply either 2", 3", 4" width tapes, or 6" width tape. And the guidance arm helps you apply the tape straight and correctly the first time.

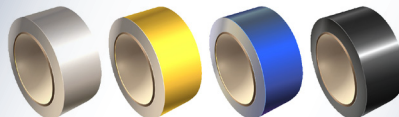

Tape Tearer

The Ultimate Tape Dispenser

Tape Tearer is the only tape dispenser that can dispense any type of 2" tape, from masking, packing, to super tough duct tapes and backed tapes. The adjustable spool keeps the tape snug against the cutter throughout the use of the entire roll. The blade guard helps guide accurate placement of the tape onto the box or envelope.

TAPE TEARER WORKS WITH ANY 2" TAPE:

INSULATED GAFF MASKING DUCT
